

KEVOCumulus Build your own VOIP business

PRODUCT GUIDE

Wanatel's KEVO solution is a white-label VOIP solution for resellers to establish a VOIP business under their own brand name for South African customers.

What is it?

KEVO provides all the benefits of a fully-fledged VOIP environment without the associated cost of creating a VOIP network.

Leverage Wanatel's Tier 1 Licence and data centre facilities, our interconnects and be assured of a secure network all the time. The solution delivers the billing engine, second line support, hardware ordering and provisioning. Resellers simply manage their own rates and price points to secure recurring revenue from their clients.

FEATURES AND **BENEFITS**

Wanatel's KEVO solution provides all the features and benefits of a fully-fledged VOIP solution, together with an advanced billing engine that provides unrivalled flexibility and visibility for resellers and customers.

With KEVO you have:

YOUR OWN BRAND

- Our resellers brand the solution as their own, adding a valuable service to existing customers and providing new avenues for revenue from unexplored markets
- Determine your own margin, and customize your own packages according to customer demand
- Benefit from highly competitive rates, leveraging our "Best Quality Routing and Termination"
- Expand your horizons to customers anywhere in the world

YOUR OWN PROFITS

- KEVO provides the billing engine, second line support, hardware ordering and provisioning, all you need to do is manage your rates and price points
- Create different rate lists, decide billing increments, minimum amounts per minute and fixed or custom margins
- Earn recurring revenue with regular customers, and encourage sales of other products, continuously growing your revenue base
- Enjoy volume discounts from Wanatel that provide you more opportunities to maximise your profit.

YOUR OWN BILLING

- KEVO incorporates a white-label billing function, sending invoices under your own brand with credit limits and payment terms set by you.
- A comprehensive control panel provides for detailed reporting, with many available at customer level.
- No billing surprises as your account is pre-paid and you set the threshold and limits for your own customers' consumption.
- Create up to 5 call plans, edit your own rates and provide a totally branded client interface

WHY DO YOU NEED **Kevo?**

Start your own professional VOIP business quickly and effortlessly

With the years of experience of Wanatel behind you, KEVO makes being a VOIP reseller easy.

With the best quality routing and termination, as well as flexible call plans, reporting, and billing, you can confidently offer VOIP under your own banner without having to create your own network or investing in expensive technical expertise and infrastructure.

> Under your own brand name, you simply manage your rates and the price points for your clients. Your business maximises its profits. Wanatel does the rest.

WHAT DOES IT COST?

Wanatel sells services to its resellers at discounted prices. The reseller can mark-up these prices and resell the products to its customers. We bill the reseller and you bill your clients.
