

# eCIRRUS

*Your comprehensive ERP solution  
for VoIP resellers*

## PRODUCT GUIDE

### **eCIRRUS is the ultimate ERP solution tailored for VoIP resellers of all sizes.**

Designed with robust, reliable code, eCIRRUS offers a seamless and efficient way to manage your company's resources, finances, projects, and more. Fully white-labelled and enhanced to meet the specific needs of resellers, eCIRRUS integrates effortlessly into your existing infrastructure, streamlining operations and boosting productivity.

With eCIRRUS, you gain full control over your business operations, empowering your team to focus on growth and customer satisfaction, while we handle the complexity of the backend systems.

## What is it?

### **eCIRRUS is a comprehensive ERP platform specifically designed to meet the needs of VoIP resellers.**

It covers every aspect of business management, including financials, inventory, project management, CRM, and HR. eCIRRUS seamlessly integrates with your existing infrastructure to provide a scalable, secure, and user-friendly experience. Its flexibility and adaptability ensure that it meets the unique challenges of growing businesses, without the need for constant upgrades or reconfiguration.

## FEATURES AND BENEFITS

*eCIRRUS delivers a powerful suite of ERP tools  
that streamline business operations and  
enhance productivity:*

### FINANCIAL MANAGEMENT

Manage your finances with advanced accounting features, invoicing, budget tracking, and reports to ensure accurate financial oversight.

### PROJECT MANAGEMENT

Plan, execute, and monitor projects with ease using intuitive tools designed to keep your teams on track and within budget.

### CRM

Maintain strong customer relationships with integrated CRM tools that help you manage leads, sales, and customer interactions in one place.

### INVENTORY MANAGEMENT

Track inventory levels, manage stock, and optimize your supply chain to ensure timely deliveries and smooth operations.

### HR MANAGEMENT

Simplify human resources tasks like employee management, payroll processing, and performance tracking to improve team efficiency.
